## **We assemble everyone and everything needed to protect your business from information security threats.**

---

Infosecurity Europe is the meeting place for the industry's finest minds. Delivering expertise and knowledge from the world's most celebrated cybersecurity experts, connecting practitioners with suppliers to find true solutions, and bringing together industry peers to network, share and ultimately, grow stronger and more resilient together.

Businesses come to buy. Professionals come to learn. Experts come to share.

---

## **Why attend?**

---

With threats increasing - 39% of UK businesses report a breach in the last year - equipping yourself with the right knowledge and tools has never been more important. The threats are complex, but finding solutions isn't.

---

## **Get updates on the latest threats**

---

Ensure the effective protection of your key resources and systems. Get advice on the latest information and cyber security challenges or find immersive workshops and demonstrations to earn CPE & CPD credits.

## **Make informed decisions**

---

Our curated conference programme means you can access all the information and industry expertise you need to make informed strategic decisions for your organisation.

## **Find solutions for your challenges**

---

Compare the newest tech products that are solving today's and tomorrow's cyber security threats. Get technical advice so that you can be confident in the solution choices you make and the protection they provide.

## **Keeping you safe at our event**

---

Your safety and your business are our priorities. At Infosecurity Europe, you can be confident that both are in safe hands. As well as carefully following the latest advice and guidelines, we are working with local authorities, and under our own strict precautions, to ensure we deliver a safe event for you to meet, learn and do business.

This means our event will look a little different this year, but these changes will allow you to enjoy the experience while keeping yourself and others safe.
