

Suburbs make you fat, researchers conclude

 devblogs.microsoft.com/oldnewthing/20030901-00

September 1, 2003

Raymond Chen

Researchers have determined that living in the suburbs makes you fat. That and all the super-sized value meals.

Speaking of super-sizing your value meal: people are tearing down their McMansions in order to build... a bigger McMansion (WSJ, paid registration required, sorry).
