

The much-misunderstood "nop" action

 devblogs.microsoft.com/oldnewthing/20031016-00

October 16, 2003

Raymond Chen

Last month, the printers were reconfigured in our building and we got an announcement that went like this:

Subject: Printer/Copier Reconfiguration

Microsoft Digital Campus Program

Action Required

blah blah blah printers are being reconfigured blah blah blah

Action(s) to be taken: No action is required as the print path information will remain the same.

Sometimes you have to do nothing, and that counts as doing something.
