

Dead man running

 devblogs.microsoft.com/oldnewthing/20040505-00

May 5, 2004

Raymond Chen

The plight of the legally dead (but physically alive) in India has been taken up by – of course – a legally dead man. And now he's running for public office. Though apparently this isn't the first time. (People are usually declared dead by conniving relatives who want to claim their inheritance prematurely.)

I wish him luck. If it works in Missouri it can work in India.
