September 4, 2006

Raymond Chen

On our internal blogging discussion mailing list, John Kennedy explained that he was trying to set up a video blog but somehow he ended up including the entire video into his RSS feed. He managed to fix the problem, but apologized:

| If the internet is broken, it was my fault.

That was funny enough, but Keith Combs chimed in with some technical advice, and then added,

| If you manage to break the internet, it won't be the first time.
