June 18, 2007

Raymond Chen

Alas, the original plan for the trip to the hole in the Arctic Ocean had to be scrapped due to the passing of organizer Steven Currey. But hollow earthers, don't give up hope! U.S. scientist Brooks Agnew has announced his plans to take the place of Mr. Currey, chartering the same ship and taking the same itinerary with the same goal.

We'll check in next year to see what they've found.
